University of Central Lancashire (UCLan)

The University of Central Lancashire is the international, multi-campus university tracing its roots back to 1828 and leading the way in modern learning today. Today UCLan is one of the UK's largest universities with a staff and student community approaching 38,000. The employment-focused course portfolio with over 350 undergrad programs, nearly 200+ postgraduate courses, and rich array of CPD courses means UCLan offers the skills in countries and 125 partnered institutions around the world.

The University of Central Lancashire is in the Top 7% of universities worldwide, according to the Center for World University Rankings 2022-23. It has also been awarded 5 QS stars commemorating the quality of teaching. Additionally, the University of Central Lancashire was awarded Silver in the UK Government's Teaching Excellence Framework (TEF), based on high quality teaching, excellent teaching facilities and the good careers that graduates go on to discover.

- Law for Entrepreneurs - Develop practical legal knowledge and critically analytical skills relevant to ethical enterprise and entrepreneurship.
- International Humanitarian and Criminal Law - This module covers international humanitarian law, including armed conflict, international criminal law, and UK human trafficking legislation.
- Company Law - Critically examine and apply legal principles governing business corporations' formation, operation, dissolution, and actors' conduct.
- Project - Develop research skills by enabling the self-directed planning, research, and production of an independently produced piece of legal writing which addresses critically a legally topic.

part 02

■ QUALIFI Level 4 Diploma in Law

Unit DL401: Contract Law

This unit aims to equip learners with knowledge and understanding of the key principles of contract law, such as: validity of contract; terms of contract; vitiating elements that affect the validity of the contract; the ways in which the contract can come to an end and remedies for breach of contract available. Learners will gain an appreciation to the significance of contract law in commercial, consumer and social contexts.

Learning Outcomes

- Understand the principles of formation of agreements.
- Understand the rules that govern the content of a contract.
- Understand the vitiating elements that may affect the validity of a contract.
- Understand how a contract can be discharged.
- Understand the remedies available for breach of contract.

Unit DL402: Criminal Law

This unit will equip learners with knowledge of the general foundations of criminal liability and with understanding of the major types of offences and their constituent elements. The unit aims to enable learners to determine whether specific offences have been committed and whether any defences may be applicable. Learner will explore the aims and nature of criminal law and its function as a protector of the State.

- Understand aims and general principles of criminal law
- Understand the elements of the different offences against a person
- Understand property offences.
- Understand the general principles of inchoate offences.
- Understand the nature and application of defences.

Unit DL403: Legal Methods

This unit will equip learners with the knowledge and understanding of the identification, interpretation and analysis of legal sources and materials. The acquired skills will enable the learner to apply the law to the facts of problems in any given legal area, to communicate clearly and persuasively and to reach satisfactory solutions to legal disputes. Learners will explore fundamental principles and components of the English Legal System, the judiciary and the civil and criminal process and will gain an appreciation of how the main principles underpin all substantive and procedural areas of law.

Learning Outcomes

- Understand the sources of law.
- Understand the principles of legal interpretation.
- Understand the structure of the legal profession, the judiciary, the jury and magistrates.
- Understand the civil and criminal justice system and the alternative methods of dispute resolution.
- Know how to use Legal Writing and Mooting Skills.

Unit DL404: Public Law

This unit will equip learners with knowledge of the general foundations of constitutional and administrative law, with a particular focus on the main elements of the United Kingdom's constitution. The unit will enable learners to identify the significance of the separation of power and the sovereignty of Parliament, as well as the importance of human rights norms. Learners will also be introduced to the basic principles of administrative law and judicial review process.

Learning Outcomes

- Understand the features of the UK constitution.
- Understand the meaning and consequences of separation of powers.
- Understand the meaning and consequences of the rule of law and parliamentary sovereignty.
- Understand the composition and operation of the legislature and the UK governments.
- Understand the nature of and procedures for judicial review.

■ QUALIFI Level 5 Diploma in Law

Unit DL501: Equity and Trusts

This unit will equip learners with in-depth knowledge and understanding of the principles governing the law of Equity and Trusts. The unit aims to enable learners to understand and apply equitable rules to fact-based scenarios, to identify and resolve issues that potential clients may face in the context of different types of trusts and equitable remedies. Learners will explore how equity interrelates with other legal topics and how equitable principles apply in domestic and commercial context.

Learning Outcomes

- Understand historical events leading to the development and nature of Equity.
- Understand the requirements for the creation of valid trusts.
- Understand the concept of the beneficiary principle and exceptions.
- Understand equitable remedies.
- Understand trustees' administrative powers and duties.

Unit DL502: EU Law

This unit will equip learners with knowledge of the European Union legal system and the main substantive aspects of the European Union laws. The unit aims to enable learners to understand the history that led to the creation of the union, the political institutions of the EU, the role and the jurisdiction of the Court of Justice. Learners will be introduced to the fundamental rights given to individuals guaranteed by the Union and to the relationship between European and national laws.

- Understand the rationale for the European union's creation.
- Understand the institutions of the European Union.
- Understand how European Union laws are enforced.
- Understand EU law on the free movement of goods.
- Understand EU law on the free movements of persons and the freedom of establishment.

Unit DL503: Land Law

This unit will equip learners with an in-depth knowledge and understanding of the principles governing land law. The unit aims to enable learners to appreciate the scope of estates and interests in land and their method of protection. Learners will explore the meaning of real property, the types of legal and equitable interests in land, the principles of registration and its purpose and the rules behind the operation of selected proprietary rights.

Learning Outcomes

- Understand the nature of interests in real property.
- Understand the concept and application of proprietary estoppel.
- Understand the nature and purpose of easements.
- Understand the nature and purpose of freehold covenants.
- Understand the application of adverse possession.

Unit DL504: Law of Tort

This unit will equip learners with in-depth knowledge and understanding of the principles governing the law of tort. The unit aims to enable learners to understand the foundations of tortious liability, remedies and defences. It further aims to enable learners to apply rules governing a variety of specific torts to fact-based scenarios and to identify and resolve issues that claimants and defendants may face. Learners will explore how tort interrelates with criminal law and how social and political decisions impact on the understanding of negligence.

Learning Outcomes

- Understand the nature and purpose of liability in tort.
- Understand the duty of care for the purpose of establishing liability in tort.
- Understand the nature of employers' and occupiers' liability.
- Understand the principles of nuisance claims.
- Understand the principles of defamation.
